WORK EXPERIENCE

Shopify developer, webskitters technology solutions pvt ltd

05/2025 – Present | Kolkata

Working as a Shopify Developer, I specialize in custom theme development, app integrations, and Shopify API implementation using Liquid, HTML, CSS, and JavaScript. I handle client requirements, build tailored solutions, and optimize store performance.

- Custom theme development and customization
- Third-party app integrations and custom app development
- Shopify API and metafield implementation
- Performance optimization and bug fixing
- Client handling and requirement analysis

Shopify Developer- 1, Bitpastel

08/2023 – 07/05/2025 | Kolkata

Specializing in Shopify development with a focus on custom theme development and theme customization using Liquid, HTML, CSS, and JavaScript. I also handle third-party app integrations, including Klaviyo and TrustPilot, and work on performance optimization to improve store functionality and user experience.

WordPress Developer, Code Design Club

04/2023 – 08/2023 | Kolkata

As a WordPress Developer, I worked on theme customization, plugin integration, and custom functionality, which strengthened my understanding of WordPress development.

Frontend Developer, eWards

04/2021 – 04/2023 | Kolkata

My responsibilities included collaborating with backend developers to implement frontend components, and I specialized in creating interactive user interfaces using Blade templates in Laravel. This experience allowed me to develop strong skills in frontend development, and teamwork.

- eCom Website - Theme Color
- Sub Account-linking
- Popup making
- Creating Landing Pages etc.
